

**Meeting with Boeing and G.E.
Thursday, July 17, 2017
3:00-3:30 – Administrator's Office**

Staff

Mandy, Sam, and Brittany

Purpose

Discussing state of Aviation Industry focusing on environment policy effecting aviation industry manufactures.

Attendees

- Jeff Shockey, VP, Federal Legislative Affairs (Boeing)
- Ted Austell, VP Executive, Legislative and Regulatory Affairs (Boeing)
- Pete Pagano, Director, Environment and Energy (Boeing)
- Roger Martella, General Counsel, EHS Division (GE)
- Mike Fitzgerald, Head of Regulatory Advocacy (GE)
- Peter Prowitt, Head of Government Affairs, GE Aviation (GE)

Boeing

The world's largest aerospace company and the leading manufacturer of commercial jetliners and defense, space, and security systems. The nation's largest exporter and the U.S. aerospace industry had a trade surplus of \$90 billion in 2016. Employs nearly 140,000 in all 50 states.

General Electric (GE)

GE is a global digital industrial company with over 131,000 employees in the US. The Aviation segment of GE designs and produces commercial and military aircraft engines, integrated digital components, electric power and mechanical aircraft systems. The majority of their \$1.4 billion annual aviation R&D focuses on technologies that improve jet engine fuel efficiency, which directly reduces CO2 emissions.
